

EDITOR'S WORD

We have the honor and pleasure to present you the new, first in 2024, issue of the journal "Administration", a scientific journal of administration and administrative law. The journal "Administration" continues since 2010, publishing scientific and professional papers and analysis from various domains of government and administrative law. In the issue, which is in front of you, the following papers have been published:

DETERMINANTS OF FINANCIAL INCLUSION IN THE WESTERN BALKANS (Đevad Šašić, Adis Ćesić, Almin Bašić); CULTURAL POLICY IN THE FUNCTION OF LOCAL COMMUNITY DEVELOPMENT IN BOSNIA AND HERZEGOVINA (Emir Tahirović, Elmir Sadiković, Ermin Kuka, Đevad Šašić); IMPORTANCE OF RESEARCH AND DEVELOPMENT FOR ECONOMIC GROWTH (Merđža Handalić Plahonjić); MANAGEMENT OF THE OCCUPATIONAL HEALTH AND SAFETY SYSTEM IN PUBLIC ENTERPRISES ACCORDING TO ISO 45001 (Sinan Letuka).

Topics represent an important segment in the understanding, knowledge and insights that are of scientific and wider social importance. The thematic units covered by this issue of the journal are a combination of different approaches to public administration and all other aspects that are more or less related to administration.

In the period after the publication of the journal number 2/2023, Editorial Board is to increase the visibility of the journal "Administration" in the new international databases.

In addition to thanking the Editorial Board for these successes, we would like to express our special gratitude to all the authors and contributors who have given and will continue to make a great contribution to increasing the visibility of the journal. In the meantime, the journal has been indexed in the ASCI Database.

We thank, once again, our authors, readers, editorial staff, governing bodies of the Faculty of Administration and the University of Sarajevo, representatives of scientific bases in which the journal is indexed and all those who have contributed to the development of the journal in recent years.

On behalf of the Editors of the Journal, the best regards and recommendations for this issue.

Ermin Kuka, PhD
Editor in Chief
